* Description					
* Description	This course is compulsory. It mainly consists of three parts: difference, cognition and interface. In the difference part, the differences in the way of thinking between Chinese and English are highlighted, and correspondingly the translating strategies and techniques are formulated. The cognition part intends to analyze the cognitive characteristics in both languages and then bring the cognitive transformations from Chinese to English into relief. The interface part examines how the semantic content in the original is realized as the syntactic structure in the target language, and thus cultivates the transferring awareness for C-E translation in students' mind.
