* Description						
* Description	<p>As an elective for German majors in the junior year, German-Chinese Translation course has 36 credit hours with the goal to prepare students for future work and study with basic skills in German-Chinese translation. It emphasizes basic translation theories and skills, combined with lots of translation practices and also modern translation tools. Students will improve their translation skills by translating articles of different genres, comparing translated versions and reviewing works of famous translators. For translation exercises, there are different text styles, for example</p>
